### Project specifications:

This is the foremost centre for the assessment and support of children with learning difficulties and severe disabilities. The centre was funded entirely out of donated funds and provides new facilities such as a gymnasium, a specialist autism unit, a sound proof music therapy unit, a sensory room full of magic lighting effects to stimulate the most severely handicapped, a soft play room to let off steam in, and jumping, climbing, and playing in the ball pool. Plus treatment and consulting rooms and offices.

Specialists descend to share their knowledge gained for the good of the disadvantaged children.
