

# CASE STUDY

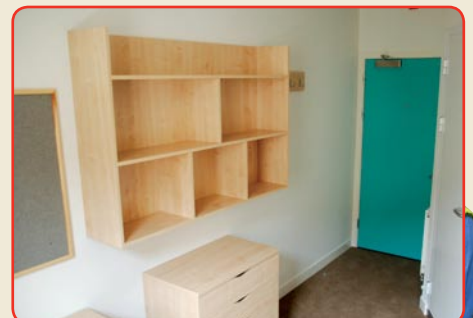

## Brunei University, Uxbridge

**Client:** Norwest Holst Ltd.  
**Sector:** Supply & Fix Joinery Packages  
**Budget:** £1,000,000  
**Duration:** 42 weeks  
**Project specifications:**

M J Hillson Limited's package consisted of 3054 door sets including, ironmongery, reception desk, cleaner counter and shelving. The door sets were for 17, blocks of student accommodation and 1, social block. They were mainly painted, with some being steamed beech veneer. The reception desk was grey laminate with a glass top.

### Conclusions:

This was a fast track contract, with each block of doors delivered weekly. Each block was completed within 2-3 weeks for the 2nd fix. Short notice was given with regards to details for the counters and shelving but M J Hillson Limited turned them around in 2-3 weeks. It was a challenge to load out approximately 200 doors each week with limited access to forklifts hampered by muddy site conditions. Site logistics were difficult as the buildings were very narrow and there was very limited space internally to store materials. However, M J Hillson Limited finished the works on time, despite recurring late variations.

**“Hillson have shown a good understanding of programming and delivery. They are able to coordinate with other trades to meet targets and maintain quality. But most of all safely. We have a good relationship we will endeavour to keep.”**  
Damien Bream, Senior Site Manager
