

CASE STUDY

Northampton School for Girls

Client: Galliford Try
Sector: Supply and Fix Joinery Packages
Budget: £400,000
Duration: 10 months over 2 phases
Project specifications:

This project consisted of a two phased project the 1st phase consisted of 6 new buildings for the school each block was a new build and M J Hillson Limited were contracted to carry out window boards to all the windows, skirting, architrave and installing doorsets and then all the door ironmongery. The new blocks were built to a good quality and high standard of workmanship and once the new buildings were completed the old parts of the existing buildings were demolished so the 2nd phase of a further 2 blocks were built in the same way. We also carried out some external trespa soffits to the canopy and undercroft areas to each of several of the building blocks.

Conclusions:

The project now complete looks very good and creates a great school environment and the buildings are finished to a very high standard. The job was managed and co-ordinated between all other subcontractors and project management teams very well..

“The project was well managed, M J Hillson Limited carried out a very good standard of workmanship and met our programme needs throughout the project and achieved a good standard of health and safety onsite.”

Andy Parish, Site Manager, Galliford Try
